RED CROSS MEETING

There was a very good attendance at the regular meeting of the Red Cross Monday evening held in the United Church Basement.

Despite a very heavy cold, Mrs Patrick presided in her usual able manner.

Miss Mary Rellinger gave the Secretary's report; Mrs John Freeman gave the Treasurer's statement; Mrs Hyde reported for the sewing committee.

Mrs Chas. Kimmett brought a good report from Nightingale as did Miss Dorothy Gorman for Lyalta.

In Mrs Patrick's report of the Provincial Meeting she stressed the strong and most pleasing personalities of two delegates viz. Mr Sommerville from Toronto, and Mrs Conquest of Athabasca.

Dr A. W. Park of Calgary, the guest speaker of the evening was introduced by Mrs Patrick and accorded a warm welcome.

Dr Park endorsed and enlarged on Mrs Patrick's comments on the Edmonton meeting. He complimented the various groups who had given such good reports during the evening. He quoted figures showing the great amount of work being continually accomplished.

Dr Park stated it was sometimes asked why one group of men seemed to get a larger share of supplies than some others, the answer being that the officer in command made requisitions to the Red Cross for supplies—and these requests were filled out. The same condition existed for the Air Force.

Up to date articles sent overseas were 307,389— for refugees 15,129, surgical dressings 256,693.

The Doctor then explained the shipment of parcels for Prisoners of War in Germany. Parcels assembled at Toronto are shipped by train to New York— from thence to Lisbon, where they are placed in an airplane and sent to Marseilles, from thence to the neutral country of Switzerland.

Here there is a committee of 3500 persons constantly employed in International Red Cross Work. This committee assorts the parcels and sends them on to the unfortunate prisoners in Germany. These parcels, numbering 20,000 per week contained food— there was no regular shipment of clothing recorded. The speaker stated that there are 44,000 prisoners from the Battle of Dunkirk alone, and the heroism of these men is being remembered by the regular shipments of The Red Cross.

Dr Park also gave an instance of progress made since the last war, in the medical world having developed a method of preserving the blood plasma and having the various type labelled in bottles, ready for use when the occasion arises— a number of lives have already been saved thereby.

Canada asks for 100,000 donors or 2000 per week.

The Doctor completed his address by urging his hearers to read a little Booklet— The White Cliffs— written by Alice D. Miller.

Mayor Hughes proposed a hearty vote of thanks to the Doctor for his interesting address, this was seconded by Mr McMurray and heartily endorsed by all.

CARSELAND

The Red Cross monthly meeting was held in the School Tuesday evening, March 11th. Owing to illness and other attractions there was a small attendance. A raffle on a cake realized $25.55, the lucky ticket being held by Mr Alex Wyndham.

Senior Hockey boys played a good game with Claresholm Monday, however losing by one goal to the visitors, the score being 5-3.

Mr Hill returned home Sunday, following an operation for goitre. He is progressing slowly but satisfactorily.

Mr George Pettinger, local teacher, is laid up with measles, at the home of Mr Hill. His room is closed during the week.

The Mossleigh Ladies Aid met at the Carseland Parsonage Wednesday afternoon, when a pleasant and profitable afternoon was enjoyed.

The eskmos of Baffin Land, in Canada's frozen north, will, perhaps be interested in a query that has reached Ottawa from Providence, Rhode Island. A lady traveller wishes to know "all about" Baffin Island — particularly its weather, tourist traffic and HOTELS.

OBITUARIES

MRS. ADA SALLIS—

Mrs Ada Sallis, aged 50, died at the family residence at Dairoy on Sunday following a long illness. She was born at Stockport, England, and came to Dairoy and resided there for the past 22 years.

She was a member of the Church of England at Dairoy and Dairoy Women's Club. Surviving are her husband, William; two daughters, Mrs Bruce Gray, Strathmore, and Dora at Dairoy; three sons, William, Kenneth and Joseph, all of Dairoy.

Rev. Dr. A. R. Aldridge conducted services at the Jacques funeral home on Wednesday at 2.45 o'clock. Interment was made in Burnsland cemetery.

Pallbearers were J. McLaughlin, L. Knox, E. Lachelt, E. O. Anderson, J. W. Williams and R. A. Allan.

Mr Sallis is a prominent member of the local Branch of the Canadian Legion, and the family have many friends in Strathmore, who will sympathize with them in their sorrow.

CLAUDE JOHNSON

Services for Claude Johnson, 58, of Strathmore, were conducted at the Leyden chapel Tuesday at 3.30 p.m., Rev. H. E. Nordlund officiating.

Pallbearers were F. Cramer, J. Warrack, S. A. Rose, J. Christison, Ted Hartell and C. Gade. Interment was in Queen's Park cemetery.

EDWARD SNYDER

The death of Edward Snyder, resident of Strathmore from 1909-1913 occurred at his home at Kathyrn February 11th following a brief illness.

He is survived by his widow, two daughter, and three sons all at Kathyrn. Funeral services will be held in Calgary Saturday, February 15th from Jacques funeral Chapel.

ARDENODE

Mr and Mrs Freddie Hilton have left on a short holiday at the coast.

Mr Alec Melenchuck spent Sunday visiting friends at Swalwell.

Mr and Mrs Frank Paveck are rejoicing over the birth of a son, March 10th, Dr. Giffen in attendance.

Word was received on Saturday of the safe arrival of Mr Tom Owens in England.

Mr and Mrs Pete Kliner, and Mrs T. Owens spent Monday in Calgary.

Winners of the Victory Wheel last week were Mrs John Davis, Mr Jack Kinsella and Mr Sandforth Shoemaker.

Mrs D. S. Brook spent Friday visiting with friends in Calgary.

LIONS' MEETING

At the Lions' Club meeting last Thursday evening, Mr Crowther was the guest speaker, when he delivered a very interesting address on the topic— The Future of Canada After This War.

The speaker dealt with a number of possible results, which left his listeners with several various ideas to ponder over.

Mr Crowther started his remarks with a request for an open forum following.

We all recognize, he said that Canada has vast potentialities after this war — both materially and politically. In the political field, he pointed out, we have produced no great figures, no world figures. In science, in medicine, in other fields, we have done so.

We, he stated, are in a queer position. Our loyalties growing up within us, tie us to the old country, while our interests, economically, tie us to the new.

We must consider the immense amount of money being spent in this war.....and where it is to come from. Furthermore, we must consider that fully as much must be spent after the war to rebuild things, as is being spent now to destroy them.

In the main, said Mr Crowther, there are five distinct possibilities that lie ahead of Canada, and which must be considered all based on the supposition that we will win the war;

1—If we can drive Germany out of all the occupied countries, we can then maintain the status quo. In this case, there would follow an immense influx of population into Canada. I am not afraid of millions of them coming in, said the speaker. We need them and not only the British immigrants. In this case, we would probably stay a self-governing nation.

2—We may become a separate, distinct country. This is doubtful.

3—We may join a Pan-American union. The question in this case, is, can we draw nearer to the Americas, and still remain British.

4—Canada may become the centre of the Empire. This is not only conceivable, it is quite possible. There are too many people for the islands to support right now.

5—There might be formed a union of all English speaking peoples, for the preservation of what they have won in the way of democracy. This is quite possible, and quite desirable.

Following the address several members took part in an interesting discussion of the different suggestions made.

MAIL FROM SOLDIERS GIVEN BEST HANDLING POSSIBLE

War Conditions Not Postal Service, Responsible When Delays Occur.

Letters from our forces in the United Kingdom, which are carried postage free, if mailed at a Field Post Office, receive the same skilled handling as those posted at a Canadian Post Office, and every effort is made to expedite delivery, states Wm. B. Mulock, M. P., Postmaster General.

But war conditions frequently interefere with prompt mailing. It is essential that this fact is born in mind, and while a delayed letter does give cause for some anxiety, bear in mind that the Postal authorities are giving the very best possible service.

HERVEY

Mr and Mrs Schacker met at Lethbridge and spent the last week end there.

Clifford Hermanson has been home from teh Hospital for over a week and s steadily improving in health.

Mike Baraboroff spent a couple of days this week with Mr Chris Gade.

Mr S. Basant is just recovering from an appendicitis operation.

The German measles have scarcely died out in this locality yet.

NAMAKA

The Bridge party last Wednesday evening was very well attended, ten tables being in play. Mr and Mrs Jack Chilton were teh winners of the prizes.

Mrs Buker returned home Monday morning after spending three weeks in Calgary.

Verden Watson has been employed by Phillips Motors, in Strathmore.

WAR SERVICES FUND DRIVE

Organizations serving Canada's airmen, soldiers and sailors abroad and at home will be assisted to the extent of $120,000 from Southern Alberta. Devoted to this purpose and with A. Craig Pierce, Drumheller farmer and a past president of the Calgary Board of Trade, as its general chairman, a working committee has set up offices in the Renfrew Building, Calgary.

Senator W. A. Buchanan, Lethbridge, and M. M. Porter, K. C., Calgary, are joint honorary chairmen of the Southern Alberta Division, and W. A. Austin, Didsbury, and S. B. Chamberlain, Calgary, are vice-chairmen. Mr Chamberlain is in charge of Calgary city organization.

"Canadian War Services Fund Inc, of which the Southern Alberta endeavor is a part, has been created following a close study by the Minister of War Services, in collaboration with representatives of war service organizations, toward the consolidating of the previous separate drives into one national annual effort," Mr Pierce stated. "It was on the insistence of the people that the principle of six appeals in one was accepted, not only to do away with the duplication of effort and expense, but also to relieve us of confusion in responding to what seemed endless calls."

"The Minister of War Services has indicated that throughout the balance of the war every effort will be made to consolidate appeals to the public into two projects— one each spring for war services (the impending campaign is the first of these), and one each autumn for domestic charities," said Mr Pierce. "War services organizations include the Canadian Legion, Knights of Columbus, Salvation Army, Y.M.C.A., Y.W.C.A. and the I.O.D.E. Each of these provides comforts, personal services, recreation huts, mobile canteens, entertainment, religious services and sports for thousands of Canadian members of His Majesty's forces. These special services and homey contacts, so important in the lives of Canadian boys now fighting democracy's battles, can be provided in no other way than through these organizations. We must not curtail them."

The campaign starts on March 24th, and Mr Pierce is devoting all of his time to the work. He has appointed secretary, E. W. Brunsden, and as publicity director, Leonard D. Nesbitt. A corps of workers is being enlisted in each local district.

"This work is distinctly apart from any city or community effort for local charities," Mr Pierce stated. "It is a national movement undertaken under government auspices. This is a time of grave anxiety and stress, and we all want to do our utmost for those who fight our battles. Canadian War Services Inc. provides an efficient medium through which we may do so. Any contributions made by people living in Canada are as nothing compared to the suffering and deprivation of the heroic citizens of Great Britain."

Major General A. D. McRae, C. B., C.M.G., is chairman of the National Campaign Committee, and Brigadier General Alex Ross, O.M.G., D.S.O., V.D., vice-chairman. Others in the personnel of the Southern Alberta Division are John Burns, national advisory board representative and Col. E. G. Sanders, C.M.G., D.S.O., honorary treasurer.

BRIDAL SHOWER

Mrs Jas. Gannon, Miss Forgie, Miss Elsie Sorensen and Miss Blanche Damen were hostesses at a delightfully arranged miscellaneous shower in honor of Mrs Corny Cockx (nee Verna Belta) at the home of the former Wednesday afternoon.

It was a complete surprise for the honor guest, the friends having closely guarded any idea of a shower.

Little Jeannine and Gordon Gannon brought in a lovely array of gifts, in a cleverly designed miniature Telephone office, drawn on a wagon.

These were presented to Verna, who in turn passed them for all to see, Verna afterwards expressing her very sincere thanks for the gifts and good wishes.

Choice refreshments and merry conversation passed a very happy afternoon. There were about 40 guests.

AIR FORCE LANDING BASE LOCATES NEAR CHEADLE AND WEST OF STRATHMORE

The increasing development of the R.C.A.F. necessitates not only men, planes and equipment but ground spaces in which to make their ascents and landings.

With this end in view officers of the Government and Air Force have been in consultation with Mr and Mrs Anton Pierson for some time.

The first steps, were, frequent and critical surveying ofa portion of this well cultivated farm. The comparative level of the land together with a railway siding being near appealed to the would be purchasers, with the result that they approached Mr and Mrs Pierson with a view to buying 1-4 section of their farm.

Negotiations have been under way for some months, resulting in the purchase of the N. W. 1-4 section, minus 8 acres on which the exceptionally good set up of modern buildings and attractive home are located..

Mr and Mrs Pierson settled on this home site in 1909, Mr Pierson having located there some years previously.

Throughout the years their home has been ever open to their friends, and much warm hospitality has been dispensed therein.

It is a matter of gratification to their many friends and especially to Mr and Mrs Pierson that the purchasers were willing to omit the buildings from their transaction.

SPECIAL MEETING OF LEGION MEMBERS

President G. A. McLean was appointed from the local branch Canadian Legion to meet with representatives of outlying points at a meeting to be held in the Dining Room of the Memorial Hall, Tuesday, February 18 at 3 p.m.

This meeting is for the purpose of making arrangements for the forth coming canvas of The Canadian War Services Fund, which includes The Canadian Legion, Y.M.C.A., Y.W.C.A., Knights of Columbus, Salvation Army and I. O. D. E.

The Drive will start Monday, March 24th.

UNITED CHURCH AIDS GOVERNMENT LOANS WIPES OUT DEFICIT

A remarkable movement is taking place throughout Canada within the United hurch — the use of the same money for two purposes, first to increase War-Savings Loans to the Government and when these have been repaid to retire a deficit of the Church.

The Church is proud to have a deficit of $1,700,000 incurred during depression years by using her credit to continue rather than cut off her extensive services to needy people; and to keep her workers employed rather than add to unemployment. The Church is proud that without dropping her work or her workers that she effected large economies over a period of years of nearly $1,000,000 annually. Now, of course the deficit of $1,700,000 carries large annual interest charges and United Church people are setting to work to wipe out the entire amount.

They are doing one of two things— buying more Certificates and registering in the name of the United Church of Canada, or are donating and registering when paid for, certificates which have already been pledged. When these certificates mature in 7 1-2 years, they will be used to pay off the Church deficit; two purposes will have been fulfiied with the same money.

The Church confidently looks to her people to decide what they may be able to do and to do this quickly. D. A. Perry, L. F. Wheeler, Dr. J. W. Giffen, Miss Gladys Hughes and the minister are a committee of the local congregation to receive pledges or records of registration about to be made. They ask their loyal people to speak to one of them next Sunday, or by March 20th.

First Man— Is it true that a Scotsman has bought that garage?

Second man— I don't know, but the Free Air and Water sign has been taken down.

POWER FARMING DEMONSTRATION UNDER AUSPICES HUGHES MOTORS, McCORMICK-DEERING AND I. H. C.

Strathmore Streets took on the appearance of Boom Days when cars from all directions lined the Main and side streets of the Town throughout Thursday.

The attraction was the Free Power Farming demonstration and moving pictures of McCormick-Deering, of Sarcee's Military Camp, and Logging and Farming operations throughout the Province. The Memorial Hall was filled with an appreciative audience.

Two tractors— the Farmall and Diesel— were on display outside the Hall and were carefully and critically looked over by scores of men and older boys.

Lunch was served by Manager T. S. and Mrs Hughes, and helpers to over 200, who greatly appreciated this kind thought.

Present and in charge of various displays and pictures were R. G. Allen, Branch Manager of McCormick-Deering; Geo. Tidsburry, Manager of Truck Dept.; Herb Dickinson, Specialist on Dairy Equipment and Mr Kelley, Blockman.

Among others, very entertaining pictures were shown of Wild Animal Life in Africa, a Travelogue in Scotland; and pioneer farming in 1911 and previous.

A free show was given all school school children at 4.30.

There is no doubt about the value of these implement demonstrations, and the large attendance is proof that men are keen to learn the newest and best methods to adopt in their farming operations.

A hearty vote of thanks was tendered Mayor T. S. Hughes and all who assisted in the Demonstration.

MR. AND MRS. WRIGHT OF COOKSHIRE, QUE. CELEBRATE 60TH WEDDING ANNIVERSARY

Thos. E. Wright, an active and respected citizen of Strathmore for some thirty years returned last week from a visit of two weeks to his parents in Cookshire, Quebec.

The occasion of the reunion was the celebration on Wednesday, February 26th of the sixtieth wedding anniversary of Mr and Mrs Wright, Sr., an event which itis given to few, to realize.

A happy family re-union was arranged, many other friends dropping in to offer their congratulations.

To Mr and Mrs Wright were born seven children, and all were present, except a son Harold, who was killed in the last Great War.

Among the many letters and telegrams of congratulation received by the honored guests, was a letter from Prime Minister W. L. Mackenzie King, between whom and Mr Wright, Sr. there has existed a friendship of many years standing.

A wire from the sitting member Mr J. A. Blanchette was also received by the guests.

Happy reminscences were recalled and a very delightful day spent by both family and friends.

The honor guests were the recipients of a number of beautiful gifts, tokens of the esteem in which they are held by their many friends, and all extending best wishes for continued health and happiness.

SPORTS

Hockey

FRANKFORT TRIMS STRATHMORE IN PLAYDOWNS

An enthusiastic crowd of fans cheered the Red Wings on to a victory they couldn't make on Wednesday night, when thef went down to defeat 5-1. The power was on all through the game, but of no avail. Five seconds after play started, Doug Malmburg, well known to local players and fans, whizzed clean to sink a hard shot in the net, giving Frankfort an immediate edge, one which they kept all through the game. A little later on, Cook threw in another. Towards the end of the first period, A. Kimmett took a well-laid pass from C. Kimmett, and laid in a shot that gave the goalie no chance. This was Strathmore's sole scoring sortie. Though they tried everything , they could do anything but score. They seemed to have a decided edge on breaking up attacks, and on bringing their own right to the goal area, but there it stopped..

The surprise and sensation of the game was Johnny Keeling who with inspired determination, was in on every play, taking all kinds of punishment, and coming back for more. Johnny, it seems, wore the other team out, from making them keep him out of the play.

Hagen, in goal, played a good careful game, being many times, the saving grace of what would otherwise have turned the score into a numbers game, but many times, after a save that took him out of position, he seemed content to watch the game from flat on the ice, or some kindred place, until he had the leisure to regain his goal mouth.

Play was exceedingly rough and tough, and many times, the crowd turned howlingly to the referees, and many more times booed the players. It seems inevitable, that with match play, a team should lose any of its finer instincts as regards sportsmanship, and give rise to a display such as occurred several times on the Strathmore ice on Wednesday night. Taking a goal judge down was one of crowning achievements in lack of sportsmanship. Surely, a blinking little cup is not worth it.

MONEY IN BUTTER

Price Spreads Board

Effective Monday, March 3rd the price of Print butter at whole sale in Edmonton was advanced to a basis of 33 1-2c for first grade.

The Vancouver butter market is still considered to be about 33 3-4c delivered Vancouver, but it is possible that 34c could be obtained for a

BEEF RING MEETING

A Beef Ring Meeting will be held at the farm home of Leslie West on Monday evening, March 17th at 8 o'clock. All members and others wishing to join are requested to attend.

Harold Scheer, Secretary.

The W. M. S. will meet at the home of Mrs Perry's at 2 p.m. Tuesday, March 18. All ladies welcome.

Strathmore Sorosis Meeting will be held Wednesday, March 19 at 8 p.m. in teh Town Hall. A good attendance is requested.

BEAN SUPPER— United Church Sunday School are sponsoring a bean supper in the basement of the Church on Wednesday, March 26th. Rev. Harbeck will speak afterwards. Admission Adults 35c, Children 15c.

Sorosis Society Pack Boxes For Boys Overseas

Nine ladies of the Sorosis Society met Tuesday in the Sample Room of the King Edward Hotel to pack boxes to be shipped to the boys overseas, to reach them for Easter.

Nineteen boxes were shipped each containing a choice collection of appetizing extras.

Mrs Jack Crellin was convenor in chief and she with her committee worked arduously to have all arrangements complete. The committee comprised Mrs J. Crellin, Mrs Ralph Martin, Mrs Woodliffe, Mrs Schulte, assisted by Mrs Van Tighem, Mrs T. S. Hughes, Mrs A. Pierson, Mrs C. F. Nicholl and Mrs N. White.

FIBRE FLAX PRODUCTION

The federal government is encouraging the production of fibre flax in certain specified districts in Ontario and Quebec. It is expected that the acreage will reach 40,000 in 1941. It is hoped that eventually Canada will be able to supply the linen industry of the United Kingdom, making up the shortage of flax fibre resulting from the loss of European supplies.

It takes about $30,000 to get into production a unit growing 1,000 acres of flax. This consists of $8,000 for a mill building, $14,000 for harvesting and milling machinery, and $9,000 for seed.

C. N. R. ORDERS NEW EQUIPMENT

Montreal— Announcement of the purchase of new equipment required by the Canadian National Railways for handling increased traffic due to war conditions was made recently by R. C. Vaughan, vice president in charge of purchases, stores and steamships for the National System.

The estimated cost of producing and handling an acre of fibre flax is $51. In one project in Quebec about $90 an acre was received for fibre and seed in 1940. —The Budget.

THE WEEK IN EDMONTON

●Manufacture of airplanes in Edmonton will be possible in the near future, it was revealed by Wing Commander A. C. F. Lake, O. C. No. 16 Technical Detachment, R.C.A.F. He said this after inspecting the new aircraft repair depot which will be ready for service this month.

●The production of high quality hogs should not be jeopardized by insufficient feed supplies, and notwithstanding the fact that wheat and oats are being used to feed hogs, an increase in barley acreage in many farms would seem to be a logical development.

●No farmer in Alberta need sow inferior seed. Stocks of good seed are plentiful and prices are the lowest for some years. Application to the nearest elevator agent will put a farmer in touch with the Alberta Crop Improvement Association, an organization which has for its objective the improvement of crops through the use of good seed.

●Warning farmers to make sure that their feed supplies for the ensuing year are adequate, Hon. D. B. MacMillan, minister of agriculture, suggested this week that seed requirements for barley growers be filled as early as possible. "With favorable prices for live stock, every farmer should obtain his requirements in his own community before coarse grains are shipped out of the province in volume." This was, he said, in view of the new dominion policy of assisting eastern farmers to obtain feed in the west.

●A warning to auctioneers in regard to sales of guns has been issued by the licensing branch of the Trade and Industry department at the request of the R. C. M. P.

HUGE STORAGE BINS TO BE BUILT AT HEAD OF LAKES

●

All country elevator companies operating in Western Canada have joined in a plan for providing upwards of 50,000,000 bushels of temporary terminal storage space at the head of the Great Lakes", according to an announcement made by A. C. Reid, President of The North-West Line Elevators Association. "United Grain Growers, Pool and Line Elevator companies have united in the plan to relieve the congestion of wheat on the prairies."

"Plans for the erection of the huge storage units have already been drafted and material for construction is now being ordered. Preliminary work of building the bins will be under way almost immediately", said Mr Reid.

"Erection of temporary terminal storage will relieve existing congestion in country elevators and will enable farmers to market the balance of their 1940 crop as well as provide some space for the 1941 crop. The providing of this space to enable the balance of the current crop to be delivered will mean the placing of many more millions of dollars in farmers' hands."

THE MAN WHO WILL BEAT HITLER

Winston Churchill

Fifty years ago, a youth stood in the playground of England's famous Harrow School and exclaimed defiantly to a group of his schoolmates: "My father is the greatest man in England and I intend to be greater than he is." His schoolmates laughed — then.

Today, the most picturesque, versatile, adventurous and lion-hearted personality in Britain's long and storied history, Winston Churchill holds the hopes of the democratic millions as no man has ever done before.

Mr Churchill is an amazing man, and he has lived a life more extraordinary in its colour and scope than any fictionized romance. He has always been unpredictable.

HISSED BY ARISTOCRACY. The scion of a distinguished and aristocratic family, he yet was hissed and hooted by the fashionable ladies and gentlemen of London when, as Home Secretary, he drove in the Coronation procession of the late King George V.

Elected to Parliament as a Conservative when only 26 years of age, his first session in the House of Commons found him vigorously opposing the Conservative Government, and within 9 months of his election, the chief Liberal journalist of the day was writing, "in the years to come, he should be Prime Minister." This, from an Opposition writer in days when party politics were bitter and acrimonious to a degree unknown today.

As a war correspondent in South Africa his writings scourged the nation for underestimating the Boer strength. In a fiery appeal to the nation's manhood, he cried — "Are the gentlemen of England all fox-hunting?" Captured by the Boers, he escaped and joined a regiment of Light Horse, fought in dozens of engagements, then when the Boers were beaten but still resisting, he turned right round and advocated a policy of conciliation which enraged many of his colleagues and friends.

"TALKS THROUGH THE NOSE." He had a defect in his speech which would have deterred most men from speaking in public, yet became one of the most popular speakers in England. This defect — a peculiar discordance of tone which is, to some extent, still apparent, was noted in a description of him circulated by the Boer secret service after his escape from an internment camp.

"English man, 25 years old, about 5 foot, 8 inches high, walks with a slight stoop, pale appearance, red brown hair, small moustache hardly perceptible, talks through the nose with a wheezing sound, cannot pronounce the letter 'S' properly."

Mention of his moustache recalls his encounter with a lady who was more pretty than polite, at a public dinner.

OUTWITS A LADY— "Mr Churchill," she remarked, as he took her in to dinner, "I like your politics as little as I like your moustache." Like a rapier thrust came his retort— "That am, you are not at all likely to come into contact with either."

Winston Churchill has been before the public for practically all his 66 years, yet not a word of personal scandal has ever been breathed about him.

He has never lacked courage, either moral or physical. As a Cabinet Minister during the last War, he made a visit to France, and an officer remonstrated with him for going into the front line. "It is very dangerous there, Mr Churchill," the officer said. "Well," retried Mr Churchill with a Puckish grin, "war is a rather dangerous business, isn't it?"

Mr Churchill may be forgiven if he believes that he has been granted some special dispensation from Destiny. Certainly, luck and coincidence have played no small part in his life.

HAIRBREADTH ESCAPES. As a boy he fell thirty feet from a tree into a ditch and escaped with a ruptured kidney that laid him up for months, but from which he completely recovered.

In an Indian frontier campaign, he stayed a moment in a hot spot to help an excited Sikh gather up his cartridge clips, after retreat had been ordered. The rest of the party, moving away, got caught in a withering blast of fire; many were killed, but young Churchill was unscathed.

In France he had several amazing escapes. Summoned back from his front line dugout by a general who wanted to have a talk with him, he found that the general was immersed in pressing business and couldn't see him then, so he returned cursing 3 miles through the mud, to find that in his absence, his dugout had been wrecked by a shell and the other officers in it killed.

PROVIDENCE ON HIS SIDE. Again, he made his headquarters in a ruined cottage which the Germans had not shelled for several months. One day they did send a few shells over, and one of them burst outside Mr Churchill's room. A huge piece of shell whirled in and smashed his chair — but he wasn't sitting in it; just a moment before he had gone outside.

Mr Churchill has played many parts— soldier, journalist, polo player, orator, politician, statesman, writer, painter, bricklayer (at one time he held a union card from the Bricklayers' Union)—but the role he plays now is the greatest of all.

***The life story of Winston Churchill, Britain's Man of Destiny, will appear in this paper, starting next week.

SCOUT NOTES

A GAVEL OF MIXED ORIGIN

A gavel and block of miscellaneous and interesting sources was that presented to Niagara-on-the-Lake Rover Scouts by Honorary Field Commissioner Laidman of the Niagara District. The handle of the gavel came from a thumbstick cut and used by the late Sir George Brown, when Provincial President of the Boy Scouts Association for Ontario. The gavel head was cut from a piece of wood removed from the council fire of the first gathering of Rover Scouts at Ontario's Blue Springs Scout Reserve. The block came from an oak tree at Gilwell Park, the Scout leaders' training centre in England. The block bore a brass plate with the inscription, "Royal Visit," 1939. Special Guards," reminding of the good work done by Niagara Rovers as Special Provincial Police during Their Majesties' visit in 1939.

A LONE SCOUT PUBLIC LIBRARY

The seven boys of a Lone Scout Patrol at Steinbach, Man., are operating a free library for the people of that little country community. The library is located in the home of two of the Scouts, brothers.

GOOD SEED

It is possible that the farmers may be on the land in a short time and their attention is again drawn to the advisability of sowing good seed.

While the wheat situation is in a chaotic condition at the present time farmers should not relax in their efforts to perfect their product. The keener the competition in world markets the greater the necessity for maintaining a high standard of Canadian export wheat.

The Alberta rop Improvement Association plan for exchanging high grade seed for commercial grain is again in operation this year. Alberta Pool Elevator agents, along with the agents of other grain companies, have been furnished with seed growers' catalogues and seed order forms. Growers who desire to obtain seed should get in touch with their agent.

Many progressive farmers have found it a desirable practice to purchase enough pure seed to sow a few acres. This plot will eventually furnish a supply for the entire farm.

The best advice for Alberta grain producers is "do not let your product deteriorate." —The Budget.

Canadian Wool Production

●

A total of 18,127,000 pounds of wool were produced in Canada in 1940, compared with 17,846,000 in 1939.

Consumption of wool in Canada in 1940 amounted to 101,616,000 pounds, which is the highest figure in 10 years. Consumption in 1939 amounted to 64,900,000 pounds. The high level of consumption in 1940 was due largely to government orders for clothing for the army.

Alberta is Canada's leading wool producing province, her production in 1940 being 4,001,000 pounds. Ontario was second with 3,362,000, Quebec third and Saskatchewan fourth.

There were 513,000 sheep shorn in Alberta in 1940.

More Alberta Road Signs Urged

●

The Alberta Motor Association has made strong representations from time to time in advocating adoption of a proper road signing scheme for Alberta. This has been taken up with officials of the public works department.

With the anticipated increase in tourist business this year from the United States, there is a greater need for adequate road marking. These visitors are accustomed to properly marked highways and naturally expect similar service when motoring in this part of the country.

-And Here's to the Ladies!

All the buying of War Savings Certificates is not being done by the men. Not a bit of it. The ladies are doing their full share, and this on top of their Red Cross work, and other War Activities — God bless them.

We offer our warm congratulations to the ladies of Alberta for the inspiration and example of their efforts. Before the War Savings Drive is over, we firmly believe that there won't be a home in this province that is not pledged 100% to Buy War Savings Certificates.

We are proud to pay this tribute to Albertan's who are working so faithfully and so conscientiously to insure the success of the War Savings Certificate Drive.

CANADIAN PACIFIC CELEBRATES DIAMOND JUBILEE

WRITERS pay tribute to Leaders from Stephen to Beatty.

Sixty years of service to the Dominion of Canada is a record of which the Canadian Pacific may well be proud. This is the consensus of writers of daily newspapers throughout Canada. Time was when editorial opinion in Canada and abroad was not their so united nor so favorably disposed toward the railway that has been for sixty years the backbone of the country.

The critics of the time were, nevertheless, confounded, and in the Canadian Pacific, Canada found her best citizen. —The Gazette, Montreal.

The history of the Canadian Pacific Railway is largely the history of the development of Western Canada. The C. P. R. made progress possible, Strathmore as a Town, C.P.R. conscious, pays its tribute of appreciation.

WAR SAVINGS CAMPAIGN

AS the returns of the Pledges in the War Savings campaign are coming in and to date a total of $2,840,613 are announced for thefirst 6 days of March.

Reports from 774 committees out of 1657 show 1,204,482 actual War Savers pledged for the duration. There will be many more when complete returns are made so that it will seem as though the 2,000,000 objective will be over-reached.

Strathmore is among the list of towns or cities which have oversubscribed their quota.

Strathmore signed 195 contributors the quota being 100.

THE HEALTH UNIT AGAIN
—THE NEW MENACE TO HEALTH.

THE gopher-spreading the bubonic plague, is one of the latest obstacles with which mankind has to contend. According to a letter in a Calgary Herald of recent date the hawk is advocated as a real friend to man.

"This season we are faced with a menace that could become most serious. This is the bubonic plague affecting gophers in three named districts, Hanna, Bassano, and Cochrane. Should the sportsmen kill the broad-winged hawk, for each hawk of any variety killed in the above mentioned districts we increase thedanger of spreading this gopher disease tenfold.

It is true that gophers kill a great number of young game birds, also eggs and fledglings of our insectivorous and seed-eating song birds. Personally I think that it would be very wise to refrain from shooting all hawks from spring until fall this season unless actually caught killing game birds or poultry." The Herald.

Then there is the Rocky Mountain Scarlet Potted Fever, another new ailment, affecting mankind. C. K. U. A. gave a long radio address on the dangers of this lately discovered disease, about which we are likely to hear and learn more in the coming months.

Surely there is need for Preventitive Measures that would be established by a Health Unit.

SERVICE TO FELLOW MAN
By H. G. L. Strange

The School Trustees of Saskatchewan recently held their annual convention at Saskatoon. I was fortunate enough to be present and I could not help but notice the intense desire displayed by het hundreds of delegates, both men and women, to do whatever each could to advance the education and the well-being of the young people of Saskatchewan. This attitude seems particularly commendable when we realize that School Trustees give their services without charge throughout the year, and sometimes even donate sums from their own pockets.

We are now all working in our spare time to help our country in this time of war, but the thought struck me, as I looked at the earnest faces of the delegates at Saskatoon, what a fine thing it would be if each one of us in peacetime would donate a few hours a week to the service of Canada.

I have often noted that those who offer their spare time servicees to their fellow-men without remuneration invariably are people of high character, and certainly are inspired with noble and patriotic ideals.

A. M. A. WILL ISSUE 103,000 ROAD MAPS

Brought up-to-date in every way possible, 103,000 new sectional road maps are to be issued shortly by the Alberta Motor Association.

TOURIST PARLEY AT EDMONTON APRIL 11-12

Improvement of services for motor tourist visitors will be discussed at a tourist conference which will be held in the Macdonald hotel, Edmonton, on April 11th and 12th.

The conference has been called by Hon. E. C. Manning, provincial secretary.

Representatives of the Alberta Motor Association, boards of trade and chambers of commerce, dominion parks, provincial authorities, transportation systems, publicity organizations are to attend the meeting, which is regarded as one of the most important of the kind ever held in the province.

The A. M. A. is taking a special interest in the forthcoming meeting, as it has been foremost in efforts to build up increased tourist trade for this province.

HAVE YOU BOUGHT YOUR WAR SAVINGS CERTIFICATES ?

DR GERSHAW WRITES FROM OTTAWA

March 13— Wallace R. Campbell of the Ford Motor Company stated—

"Canada has become the most important source of mechanical transport for the Empire. All the trucks used in the African campaign have been supplied by Canada, and have proven to be equal to the best made anywhere. More than 90,000 have been delivered for military purposes in the Empire."

It is one of the ironies of circumstance that the Senate, in war time more than in any other time, is the House of the Comfortable Unemployed. They meet and adjourn because at this stage of the session there is nothing for them to do. Many of the Senators would welcome more work. The Commons is deluged with work and sits long hours, but it seems under the Constitution to be impossible for the Senate to share the burden. All the legislation has relation to the war and involves money and plenty of it. Money bills go to the Senate but they cannot be initiated there. The war appropriations, the estimates, teh Budget, and anything related to them must constitutionally be started in the Commons. Apparently nothing can be done about it either by the Upper House or by the Government, considering the procedure which must befollowed in bills which involve the expenditure of taxes.

Democratic institutions move slowly, perhaps too slowly during a war, but long experience with trial and error has built them up as they now are.

A government cannot go ahead and do business like a private concern. They must listen to long hours of discussion by Members who often have not the complete picture of the transaction before them. They also are subject to newspaper attack, and they must be a position to justify every detail of their activities. The Public Accounts Committee can be called by any member to make an investigation. In addition, a Committee on war expenditure is now organized and it will be their function to call Ministers and officers before them to justify every contract and every dollar spent.

It is sometimes stated that outstanding men should come into the government. Some have come in and are working for $1.00 per year, and doing a great national service. None of them, however, will go into the Cabinet and face the barrage which daily meets the Ministers. It is hard to find supermen, and harder to get them elected and to have them submit to the constant questioning that is part of the system.

All the Members here recognize that if the Liberals and Conservatives united for the support of a war-time government, criticism would be more bitter and prolonged from the other Groups who would not on any account suport any Union effort. These problems have been freely discussed and the general feeling is that the government elected a year ago should go ahead and serve the country in this time of great trial, take full responsibility, be held strictly accountable for their action, and take what measure of praise or blame Fate may have in store for it.

FROM THE "FOUR CORNERS"

"Whooping cough takes more lives than any other communicable disease among children up to one year of age, and in children one to five more than scarlet fever and diphtheria combined," the Michigan Department of Health declares in a recent report.

Acting on this fact, Michigan is endeavouring to do for the prevention of whooping cough what many Canadian cities have done toward the eradication of diphtheria. A new pertussis vaccine, which has proved its efficacy during field tests covering a four-year period and involving some 4,000 children, is being distributed throughout the State.

CANADIAN NATIONAL EARNINGS SHOW INCREASE

The gross revenues of the all-inclusive Canadian National Railways System for the period ending February 28, 1941, were ..... $5,509,076 as compared with ..... $4,854,995 for the corresponding period of 1940, an increase of ..... $ 654,081.

ALLIGATOR IS CARGO ON REGULAR FLIGHT

Toronto— Strangest piece of 1941 cargo to date for Trans-Canada Air Lines was a six-foot alligator, stuffed but realistic, that passed through here recently. Its owner, a well-known Vancouver mining man, brought it with him from British Guiana where he has mining properties. The reptile was a gift for a friend in Medicine Hat, Alta. "Flight-Sergeant," a pugilistic cat that is the darling of the T. C. A. Lethbridge hangar, came across the Alligator while it awaited train connections there. It was a tribute to the taxidermist's art that "Flight" turned tail and didn't show up for days.

AVOID FIRE HAZARDS

At Frankville, a fire started recently from hot ashes dumped in a shed; later, hot ashes in cardboard cartons started a blaze at a point where refuse was being dumped in a gully at Arnprior. Fire insurance policies contain statutory provisions relieving the companies of obligation to pay losses in fires resulting from such causes. —Perth Courier, Ontario.

THEY KNEW NOT

The Alliston Herald really started something a few weeks ago when the editor commented on the small number in Alliston entrance class who could write out the Lord's Prayer correctly. Our local principal decided to try out his brilliant scholars on the Lord's Prayer and the ten Commandments. The results were so bad that he discarded them in disgust. The point now to consider is; who is to blame for this evident lack of religious knowledge? We would say the parents of the children have been decidedly negligent. —Creemore Star, Ontario.

How would Strathmore or Western children measure up?

Canadian Red Cross Society

The Queen Is Happy To Accept

Her Majesty The Queen has cabled the Canadian Red Cross Society that she herself will be "Happy to accept" the great quantities of supplies and comforts which the women of Canada have been making since Christmas to be distributed among the women's voluntary services in England. The cable sent by a Lady-In-Waiting at Buckingham Palace, said, "The Queen deeply touched and happy to accept generous offer contained in your letter"

This last reference was to a communication sent to Her Majesty and singed by Mrs H. P. Plumptre as Chairman of War Activities, and Mrs Wallace Campbell, Chairman of National Women's War Work Committee. Their letter informed the Queen that women across anada had begun to make special supplies of equipment, for British women volunteers. The Red Cross requested Her Majesty to accept the Canadian supplies which would be placed at her disposal by the Overseas Committee in London, and to distribute them wherever they were needed most.

"THE PUREST FORM IN WHICH TOBACCO CAN BE SMOKED."

LYALTA

Forty-eight ladies attended the Refugee Shower and Red Cross Meeting held in the hall Thursday, March 6th. Fifty-eight articles of clothing and six cans of baby powder were received. We extend our thanks to the Cheadle ladies who attended, and helped make the afternoon the enjoyable one it was. Tea and delicious refreshments were served after the meeting and shower.

The Foresters Dance held March 7 was quite successful when a good crowd attended. Besides the local crowd there were young people from Dalroy, Keoma, Kathryn, Delacour, Cheadle, and Calgary. The Foresters have decided to hold another dance Friday, March 21st.

Mr and Mrs Snoxall, Miss Alice Snoxall, Miss Marjorie Lawson and Miss Dorothy Gorman attended the Strathmore Red Cross Meeting Monday evening, March 10th. The meeting was thoroughly enjoyed by all and the refreshments served at the home of Mrs Patrick afterwards were most delicious. Thanks to Mrs Patrick and the other ladies for their kindness and hospitality.

A number of the men folk motored to Calgary to see the hockey game last Monday evening.

Our sympathy is extended to the Sallis family of Dalroy in their recent sad bereavement.

CANCER CLINIC WILL BE FREE

TO BE OPENED AT HOLY CROSS MARCH 28TH

A free cancer diagnostic and X-ray clinic will be opened March 28 under the auspices of the provincial government, in the Holy Cross hospital, it was announced Wednesday by Dr. W. W. Cross, minister of health.

With four doctors in attendance the clinic will be in operation one afternoon a week until the number of applicants warrants an extension of hours.

Last year the Calgary Hospitals Board turned down the application of the government to place the clinic in the General hospital, owing to lack of room.

The Holy Cross hospital will do the diagnostic X-ray treatment while the deep therapy treatment will be given by the Radium and X-ray Clinic operated by Dr W. McGuffin, on 7th Ave West.

The medical staff of the clinic will include Dr. J. W. Richardson, surgeon; Dr W. S. Quint, X-ray; Dr R. R. Hughes, physician, and Dr R. C. Riley, Holy Cross hospital pathologist.

The first provincial cancer clinic was opened at Edmonton on January 14 and the Calgary clinic will be the second established in the province. An appropriation of $45,000 has been placed in the provincial budget for the cost of operating the Calgary clinic.

The Alberta Government is to be commended on this forward social legislation.

Sharp: "What would you do if I kissed you?"
Betty Willson. "Child, I was just wondering what I'd do if you don't."

●

Bisacre: "It's hell, ain't it?"
Galbraith: "What?"
Bisacre: "Where all the bad people go

●

I used to love Mary
But lost the poor kid;
Her best friend wouldn't tell her,
So I went and did.

●

Voice from the Gutter. "Offisher!! Offisher! I've losht m' way! Call a cop, willya?"

●

Hazel Stoodley: "Do you think a girl should learn to love before twenty?"
Eddie Risdon: "Nope. Too large an audience.' '
